

(COOL) FUN AT HOME : DAY 23

WACKY WEDNESDAY

EXPLORE OUTSIDE

PAINT-LESS PAINTING: Fill a paint tray or small bucket with about 2" of water. Provide a selection of paint brushes and rollers, and invite the kids to "paint" the deck, driveway, door or sidewalk. This activity helps to build hand-eye coordination -- and this twist on painting has little to no clean up!

LEARN

FIZZY SEUSS SCIENCE: Try the [Green Eggs and Ham Experiment](#)! Get ready to experience some egg-ceptional fun with this simple chemical reaction experiment from Little Bins for Little Hands.

CREATIVITY CHALLENGE

MAKE A WACKY SOCK PUPPET: The Center For Puppetry Arts has a great tutorial that will teach your child [how to create their own puppets from socks](#)! This is a perfect way to give new purpose to those lonely socks that can't find their match!

MOVE

DANCE LESSONS FROM THE CAT: Dance Lessons from the "big" cat himself! [Check out this video](#) that will teach your child a new dance -- and the instructor is none other than the Cat with the red and white hat!

LEGO LESSONS

SEUSSICAL LANDSCAPE

Our (cool) friends at Snapology of Towson-Perry Hall are hosting a [Dr. Seuss Themed Lego Challenge](#) Class via Zoom from 2:30 PM - 3:30 PM! \$10/child.

DE-STRESS

MAKE A WACKY SACK

This [DIY "wacky sack" stress ball](#) from Somewhat Simple is easy to make and will provide hours of fun for the kiddos.
