

# Kangarootime

## PARENT GUIDE

### Welcome to Kangarootime!

Kangarootime partners with centers and families to help make the childcare experience better. Our parent app gives you the ability to see your child's daily progress, communicate with your center, and make payments all from the convenience of your smartphone. You will love the peace of mind that comes with being able to peek into your little one's day!

**Make your payments.** You can set up multiple payment methods and will be reminded when payments are due. Easily review your statements and invoices right within the app. You'll never incur a late fee again with our auto-withdrawal feature!

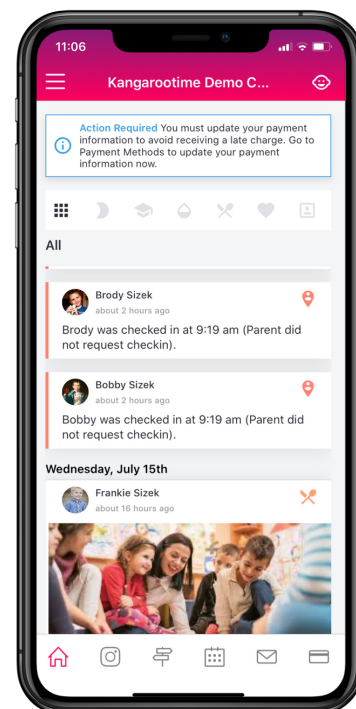

**Check in on your child's day.** View photos in the gallery, read what your little ones are learning, and stay up-to-date on their nutrition and nap times. With Kangarootime, you can stay connected to your child's day and share in all of the precious moments that happen!

**Communicate with your center.** You'll receive a push notification when a teacher or director needs to reach you. Sometimes it's important to communicate in real time with your child's teachers or directors. Use our messaging feature to easily contact center staff and receive important updates.

**Get started today!** The Kangarootime Parent smartphone app is available for iOS and Android devices. Search "Kangarootime Parent" in the App Store or on Google Play, find the icon below and begin downloading!
