

## Sunscreen Permission Form

From May to September we must provide protection against sunburn for your child(ren.) This is a requirement from licensing outlined in our Risk Reduction Plan and is considered to be best practice by our health nurse consultant. As you may know, the children go outside (weather permitting) twice a day for 30 minutes at a time. During the summer months we often take advantage of outdoor learning opportunities as well, which means your child may be outside longer than 30 minutes at a time. **Compass will provide sunscreen for the children unless you have a sunscreen you would prefer to bring. You may provide sunglasses, hats and other protection for your child as well as sunscreen (please label them with your child's name.) Sunscreen will be worn if the UV factor is 2 or greater.**

I give Compass Child Care permission to put: (please check one of the options listed below)

- Compass provided sunscreen on my child (non-aerosol, 50SPF, children's formula)
  
- Sunscreen I have provided on my child (must be a lotion/ non-aerosol, must be left at the center for daily use. Please note that the sunscreen will stay in your child's room so if you have multiple kiddos, we need a sunscreen for each child. Label with child's first and last name.)

Child name: \_\_\_\_\_

Parent/ guardian name: \_\_\_\_\_

Parent/ guardian signature: \_\_\_\_\_ Date: \_\_\_\_\_

**If your child's needs change after you turn this form in, please ask management for a new form.**

- Sunscreen provided and is labeled w/ child's name (if not using Compass sunscreen)
- Copy of this form given to lead teacher of child's classroom
- Original copy filed in child's file
